### DETAILED ACTION

1. Applicant's response filed on 07/24/2008 in which amendment to claim 6 and addition of claim 18 is acknowledged.

### *Election/Restrictions*

2. Claim 1 is allowable. The restriction requirement of Species 1-7, as set forth in the Office action mailed on 07/24/2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2-5, 9, 13-17, directed to optical device package no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

3. Claims 1-18 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to teach or suggest an optical device package with a first resin and a second resin and second resin having a coefficient of linear expansion lower than that of the first resin as set forth in the combination of claim 1.

The dependent claims are allowable at least for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- US-6396082: The invention teaches related optical device package yet fail to teach or suggest the second resin having a coefficient of linear expansion lower than that of the first resin as applicant claimed.
- JP 2002-118270: The invention teaches related optical device package yet fail to teach or suggest the second resin having a coefficient of linear expansion lower than that of the first resin as applicant claimed. The invention teaches the second resin having a coefficient of linear expansion higher than that of the first resin which is opposite of applicant claimed invention.
